

# EyeProtect Basics

INTRODUCED 2011

## What Is It?

EyeProtect Basics provides clinically researched levels of key nutrients in highly bioavailable forms to support retinal and macular health.\*

## Uses For EyeProtect Basics

**Eye Health:** The importance of nutrients for eye health has been particularly evident since the publication of a long-term multicenter, prospective study involving more than 5,000 individuals ages 55-80. Results revealed that high amounts of vitamin C, vitamin E, zinc and copper support the health of the retina and macula. EyeProtect Basics contains clinically researched levels of these nutrients in optimally bioavailable forms.\*

## What Is The Source?

Vitamin C is derived from corn dextrose fermentation. Ascorbyl palmitate is derived from corn dextrose fermentation and palm oil. Vitamin E is derived from highly purified soybean oil. The soy protein portion has been removed. Zinc and copper are derived from elemental ore. Citrate is derived from corn dextrose fermentation. Glycinate is synthetic. Hypo-allergenic plant fiber is derived from pine cellulose.

## Recommendations

Pure Encapsulations recommends 2 capsules per day, with meals.

## Are There Any Potential Side Effects Or Precautions?

If pregnant or lactating, consult your physician before taking this product. At this time, there are no known side effects or precautions. Consult your physician for more information.

## Are There Any Potential Drug Interactions?
