

Kidney Support Formula

INTRODUCED 2008

What Is It?

Kidney Support Formula features cordyceps, astragalus, angelica sinensis and antioxidants to support renal function and renal cell health while promoting immune function.*

Uses For Kidney Support Formula

Kidney Function: *Cordyceps sinensis* is a mushroom that has been used for centuries to support glucose metabolism, vascular health and renal function. Believed to have adaptogenic and tonic properties, cordyceps has also demonstrated specific support for healthy renal tubular cell metabolism and renal tubular cell membrane function. In other studies, cordyceps supported renal function as well as healthy T-lymphocyte activity and immune function. The cordyceps used in this formula contains beta glucans, arabinoxylanes and glycoproteins and is organically grown using a proprietary growing methodology. *Astragalus membranaceus* and *Angelica sinensis*, typically in combination, have revealed the ability to support healthy immune mediator gene expression to maintain healthy renal cortex and glomerular functions. The combination may also support healthy vascular function in the kidneys by supporting nitric oxide synthesis and free radical scavenging. Curcumin and quercetin provide targeted antioxidant support for healthy renal tissue.*

What Is The Source?

Cordyceps sinensis is derived from mycelia and certified organic. Astragalus extract is derived from *Astragalus membranaceus*. Dong quai extract is derived from *Angelica sinensis*. Quercetin is derived from Japanese pagoda tree (*Sophora Japonica*) flower buds. Turmeric extract is derived from *Curcuma longa* root and standardized to contain 95% curcuminoids. Ascorbyl palmitate is derived from corn dextrose fermentation and palm oil.

Recommendations

Pure Encapsulations recommends 1-3 capsules per day, in divided doses, with or between meals.

Are There Any Potential Side Effects Or Precautions?

Turmeric has been associated with GI upset. If pregnant or lactating, consult your physician before taking this product.

Are There Any Potential Drug Interactions?

Cordyceps, astragalus, and quercetin are contra-indicated with immune suppressive medications. Dong quai and turmeric may be contra-indicated with blood-thinning medication. Quercetin may be contra-indicated with certain antibiotics.

Kidney Support Formula

each vegetable capsule contains  v 00

Cordyceps sinensis (mycelia) (certified organic)	500 mg
Astragalus membranaceus extract (root)	75 mg
Angelica sinensis (dong quai) extract (root)	75 mg
quercetin	50 mg
turmeric (<i>Curcuma longa</i>) extract (root)	50 mg
standardized to contain 95% curcuminoids	
ascorbyl palmitate (fat-soluble vitamin C)	10 mg
other ingredients: organic brown rice	

1-3 capsules per day, in divided doses, with or between meals.
