RejuvenAge

INTRODUCED 2012

What Is It?

RejuvenAge is a scientifically researched combination of acetyl-L-carnitine (ALC) and alpha lipoic acid (ALA) offered with PhytoLongevity, a polyphenol blend that supports inflammatory balance, cardiometabolic health and cognitive performance.*

Uses For RejuvenAge

Cellular Health: Over a decade of research has associated healthy mitochondrial function with longevity. Preclinical research on aging conducted by an award-winning team of scientists at UC Berkeley, including Dr. Bruce Ames, has revealed a combination of acetyl-L-carnitine, alpha lipoic acid and biotin can promote longevity. Dietary polyphenols from fruits and vegetables provide cellular protection by maintaining youthful patterns of gene expression in the heart, blood vessels and brain.*

Special Features

Patented Longevity Combination*:

- Patented, scientifically researched combination of acetyl-L-carnitine (ALC), alpha lipoic acid (ALA) and biotin, used under license from Juvenon, Inc.
- Supports healthy gene expression and increases mitochondrial number for enhanced cellular energy production*
- In preclinical studies, this patented ratio of ALC and ALA has enabled elderly laboratory animals to function at a level characteristic of much younger animals*
- Clinical research indicates that the combination supports total plasma antioxidant capacity, cardiovascular health and psychological well-being*

PhytoLongevity: A Spectrum of Natural Polyphenols for Healthy Aging*:

- Polyphenols are active constituents of cardio- and neuroprotective fruits and vegetables; this proprietary blend contains cranberry, wild blueberry, strawberry and spinach leaf extracts*
- The unique ratio of blueberry and cranberry support healthy inflammatory balance by maintaining healthy activity of nuclear factor kappa-B (NFκB), a regulator of gene expression*
- Cranberry, strawberry and spinach polyphenols maintain healthy activity of prolyl endopeptidase (PEP), an enzyme that regulates neurotransmission, healthy PEP activity supports memory and cognition*
- Cardiovascular and metabolic benefits of these specific extracts have been demonstrated by research conducted by Pure Encapsulations in collaboration with the Institute of Nutraceuticals and Functional Foods (INAF) at Université Laval, Quebec, Canada*

What Is The Source?

Acetyl-L-carnitine HCl[†], alpha lipoic acid (thioctic acid)[†] and biotin are synthetic. PhytoLongevity proprietary blend is sourced from cranberry (*Vaccinium macrocarpon*) extract (fruit), wild blueberry (*Vaccinium angustifolium*) extract (fruit), Orléans strawberry (*Fragaria vesca var Orléans*) extract (fruit) and spinach (*Spinacia oleracea*) extract (leaf).

[†]Under license from Juvenon[®] Inc

Recommendations

Pure Encapsulations recommends 3 capsules daily, with meals.

(continued)

*These statements have not been evaluated by the Food & Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

For educational purposes only. Consult your physician for any health problems.

Are There Any Potential Side Effects Or Precautions?

If pregnant or lactating, consult your physician before taking this product. Alpha lipoic acid and acetyl-l-carnitine have been associated with gastrointestinal upset or skin rash in sensitive individuals. Consult your physician for more information.

Are There Any Potential Drug Interactions?

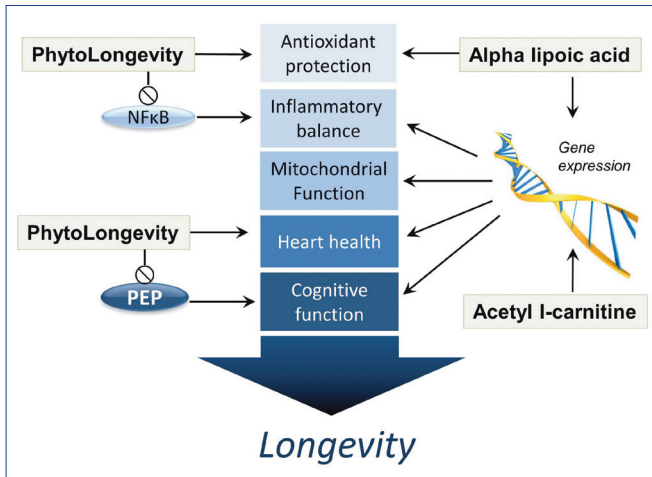

At this time, there are no known adverse reactions when taken in conjunction with medications. Consult your physician for more information.

RejuvenAge

three vegetable capsules contain  v 00

biotin†..... 2 mg
 acetyl-l-carnitine HCl† 1,000 mg
 alpha lipoic acid (thioctic acid)†..... 400 mg
 PhytoLongevity proprietary blend..... 200 mg
 providing cranberry (*Vaccinium macrocarpon*) extract (fruit),
 wild blueberry (*Vaccinium angustifolium*) extract (fruit), Orléans
 strawberry (*Fragaria vesca* var Orléans) extract (fruit) and
 spinach (*Spinacia oleracea*) extract (leaf)
 (hypo-allergenic plant fiber added to complete capsule volume requirement)
 other ingredients: maltodextrin
3 capsules daily, with meals.

RejuvenAge supports fundamental determinants of longevity*

PhytoLongevity delivers powerful antioxidant polyphenols that support inflammatory balance by maintaining healthy activity of nuclear factor kappa B (NFκB), a genomic regulator of the inflammatory response. Recent research shows that this unique polyphenol blend also maintains healthy activity of the neurotransmission regulator, prolyl endopeptidase (PEP), which plays important roles in memory and learning. Through maintaining youthful gene expression, alpha lipoic acid and acetyl-l-carnitine support inflammatory balance, mitochondrial function, heart health, cognitive function and healthy aging.*
