Detoxification	NAC 600 mg Order Codes: NA69 / NA61 / NA63	• 1 capsule, 1-3 times daily, between meals		

For a small subset of patients, Th1 Support will not be appropriate. This small subset is typically identified by a recent, vigorous onset of self-tissue response, most often associated with the need for joint support or joint comfort. Labs may indicate a need to modulate monocyte response (percentage). For these patients, supplementation with Immune Balance and other support products may be indicated.‡
