

# A.I. Enzymes

**INTRODUCED 1999**

## What Is It?

A.I. Enzymes provides a superior combination of natural vegetarian-based enzymes precisely balanced for broad spectrum support of digestive function, or to help maintain healthy joints and muscles in times of peak stress.\*

## Features Include

- Dual support for digestion and the musculoskeletal system.\*
- Enzymes that are stable in a wide pH range.\*
- Enhanced levels of protease, amylase and lipase derived from the digestion of a nutrient source by *Aspergillus oryzae* and *Apergillus niger*.
- High potency bromelain and papain to further support the protease profile of this formula.
- The flavonoid rutin for protection against oxidative stress.\*

## Uses For A.I. Enzymes

**Digestive Support:** Taken with meals, this plant enzyme blend supports the body's natural digestive process by promoting the breakdown of protein, carbohydrates and fat.\*

**Musculoskeletal Support:** Taken between meals, the enzymes in A.I. Enzymes promote healthy levels of kinins and fibrin, thereby helping to maintain normal muscle and joint function.\*

## What Is The Source?

The protease and amylase in this formula are derived from the digestion of a nutrient source by *Aspergillus oryzae*. Lipase is derived from the digestion of a nutrient media by *Aspergillus niger*. *Aspergillus oryzae* and *Aspergillus niger* are fungi that produce enzymes when grown in certain nutrient media. The enzymes they

produce to digest this media are isolated and purified. There are no fungi present in the finished product. Bromelain and papain are derived from pineapple and papaya, respectively. Rutin is sourced from the Fava danta tree found in Brazil.

## Recommendations

For digestive support, 2–6 capsules per day, in divided doses, with meals. For healthy muscle and joint support, 2–6 capsules per day, in divided doses, between meals.

## Are There Any Potential Side Effects Or Precautions?

If pregnant or lactating, consult your physician before taking this product. Individuals with an allergy to pineapple or papaya should not take this product. While there is no fungi present in the final product, individuals with candida may be sensitive to this product.

## Are There Any Potential Drug Interactions?

At this time, there are no known adverse reactions when taken in conjunction with medications.

### A.I. Enzymes

each vegetable capsule contains	 V 00
bromelain (2,400 gdu/gram).....	120 mg.
papain (800 TU/mg) .....	120 mg.
amylase (10,000 DU).....	100 mg.
protease (30,000 HUT).....	50 mg.
lipase (2,500 FIP) .....	50 mg.
rutin .....	60 mg.

**For digestive support, 2–6 capsules per day, in divided doses, with meals. For healthy muscle and joint support, 2–6 capsules per day, in divided doses, between meals.**
