Did You Know?

Daily sugar consumption in the United States has increased by 83 calories since 1977. Excess sugar consumption has been linked to obesity, inflammation, oxidative stress, type 2 diabetes, cardiovascular disease, and more.^{2,3} Research even suggests that consuming sugar can drive future sugar cravings.⁴ Balancing the need to limit added sugar with taste and convenience, each PureNutrients Gummy contains just 0.5 g of sugar, compared to 2 g in many other gummies on the market, using a low-glycemic, plant-based prebiotic fiber and natural sweeteners.**
