

Essential-C & flavonoids

Vitamin C enhanced with flavonoids for antioxidant, immune, and vascular support[‡]

- Immune and vascular support[‡]
- Easily absorbed form of vitamin C[‡]
- Made with hypoallergenic, vegan ingredients

Essential-C & flavonoids offers a blend of ChelaMax[®] vitamin C and flavonoid compounds to provide vitamin C support for healthy immune and cellular function, as well as blood vessel integrity. ChelaMax[®] offers scientifically formulated, rigorously tested, and fully chelated calcium ascorbate. The process of chelation wraps this non-acidic, water-soluble nutrient in a protective shell to enhance bioavailability. A unique three-step quality assurance and verification process ensures full chelation, purity, and efficacy. This process includes X-Ray diffraction (XRD), to confirm the actual structure of the compound; Fourier Transform Infrared (FT-IR) spectroscopy, which creates a unique fingerprint specific to this material; and Thermogravimetric analysis (TGA) to confirm purity. The bioflavonoids quercetin and rutin are free radical scavengers that complement the roles of vitamin C. Quercetin helps maintain healthy mast cell function and moderates healthy leukotriene and prostaglandin metabolism. Rutin provides important support for blood vessel integrity and healthy cell function.[‡]

each vegetarian capsule contains:

| | Amt/svg | % DV |
|--|---------|------|
| Vitamin C (from ChelaMax [®] calcium ascorbate) | 619 mg | 688% |
| Calcium (from ChelaMax [®] calcium ascorbate blend) | 68 mg | 5% |
| Quercetin | 50 mg | * |
| Rutin | 100 mg | * |
| Other ingredients: vegetarian capsule (cellulose, water), ascorbyl palmitate | | |

1 capsule, 1-2 times daily, with or between meals.
